

# STORAGE MACHINE ACCESSORIES

Increase productivity and picking efficiency

## Storage Machines - tailored to your business

Kasten Storage Machines are an almost unbeatable choice when it comes to maximum efficiency in order picking and small parts retrieval. We offer you an automated system and a selection of accessories to create your own tailor-made storage solution to meet your individual requirements.

With the ability to seamlessly link these machines to your ERP or WMS using our TC2000 software managing your picking has never been easier.

# TORNADO ACCESSORIES

## Light position indicator

Shows the operator the location of the next pick, improves picking speed and reduces errors.

## Light pointer

Light beam that indicates from which box to pick.

## Confirmation strip

A strip alongside the light position indicator for faster picking confirmation.

## Tray divider

Dividers are useful when there's a need to separate items on a Tornado tray.

## Door

With an electrical door the machine is easily closed to prevent unauthorized use.

## In-out feeder

Automatically brings the tray outside the machine for easier access to big/heavy goods.

## Service door

Service door on the cladding eases service man to access the machine during maintenance.

## Weight control

The scale shows the tray load on the Tornado screen

# VERTICAL CAROUSEL ACCESSORIES

## Light position indicator

Shows the operator the location of the next pick, improves picking speed and reduces errors.

## Confirmation strip

A strip placed under the table for faster picking confirmation.

## Door

With an electrical door the machine is easily closed to prevent unauthorized use.

## Divider

Dividers are useful when there is a need to separate items on a Paternoster carrier.

## Sublevel

An extra shelf on the carrier.

## Wooden table

Instead of the standard metal table a wooden table can be installed.

# CORIZONTAL CAROUSEL (HOCA) ACCESSORIES

## Vertical light position indicator

Shows the operator the location of the next pick, improves picking speed and reduces errors. Installed vertically.

## Sheet metal bay

A machine can be installed with sheet metal bays instead of a standard wire mesh bays.

## Foot switch

Foot switch for easier picking confirmation.

# TC2000 - WAREHOUSE MANAGEMENT SYSTEM

The TC2000 warehouse management system is designed for all the Kasten automatic storage machines with flexible controls for all types of demands.

The software enables paperless picking and offers an easily accessible history of activity, as well as giving a clear indication of where goods are located within the machine, indicating which orders need to be picked and updating stock levels once the item has been taken. Windows based system that easily integrates with most existing ERP or WMS tools.

## BATCH PICKING

With Kasten storage machine you can optimise efficiency by batch picking, enabling the operator to combine numerous orders whilst guiding them through the process of allocating the correct item to the relevant order. The system brings the tray to the operator and provides information on the product and its location.

*Automated storage machines can be combined with wireless barcode reader and pack to light systems for fast batch processing.*

## Label printer

For easy and fast label printing.

## Batch picking

Enables picking several orders from several machines at the same time.

## Wireless barcode reader

Wireless barcode reader for faster picking.

## SERVICE AND MAINTENANCE

We understand the importance of having a fully operational warehouse at all times. With our preventive maintenance program including remote support for our Tornado contract customers we can minimize the possibility of breakdowns. Kasten provides a full professional service package to make sure quick response times if your product requires attention.

To make sure your storage machine is in optimum condition Kasten also conducts regular service to help prolong its life and reduce down time, resulting from damage going un-noticed. Scheduled servicing of your Machine by our accredited and qualified service team can provide the necessary support and assistance.
